

SORIANI Alessandro

Zaffiria
Educator
Italy

Zaffiria – Excellence Centre of the Province of Rimini – is a centre based in the Municipality of Bellaria Igea Marina. The centre is engaged in offering and developing media education in the schools in collaboration with teachers, parents and children. Our projects and workshops are carried out in close cooperation with the many governing bodies of the schools throughout the territory. Our aim is to promote Children’s rights and their social participation through the creative use of mass media, as with awareness raising initiatives like the Children’s Municipal Council.

I’m 27 and I live in Cento, a small town near Bologna. I graduated in ICT and then I get a master degree in Science of education with the curriculum of “media education and e-learning”. I own a cultural association that works for and with young people in order to create events. I also work as educator for Zaffiria in Rimini. My job is to do workshops in schools about media literacy, critical thinking, and correct use of new media like social network, chat, mobile phones, etc... I love photography, the video arts, and I practice in ju-jitsu, a sport that I love.
