It occurred on 16 th June '13, with a cloud burst and followed by a series of land slides and floods all over the area of Himachal. Kadernath temple was the main victim of the disaster. People on pilgrimage were

					diversely affected. Many people lost their life in stampede and a large number of families are still waiting for their dear ones to come back. The most painful thing is that whereabouts of many e persons are still unknown. But hats off to our soldiers, they worked really very hard, day and night tirelessly to rescue people stuck there. Without their help and support, nothing could have happened.
